DETAILED ACTION

Drawings

1. The Examiner accepts the Drawings filed on 02/24/2004.

Allowable Subject Matter

2. Claims 1-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest an apparatus for managing articles wherein an imaging device, such as a camera, captures and records an image of an article to which a radio ID is attached. In addition, the ID of the tag and image of the article are managed by way of association, and an editing section allows attribute information to be added to the tag ID, as well as the captured image. As for independent claims 13, 16 and 17, with respect to an article management system, prior art fails to teach or suggest a system wherein article information and schedule information are associated with one another, for the purpose of associating stored article information with the ID of the tag, wherein a comparator checks the ID of the radio tag against an ID stored in memory, for the purposes of determining a match.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
